Stockholm Junior Water Prize

Newsletter#1, January 2025

Dear National Organisers

I wish you a very happy new SJWP year!

At this point it looks like we will be 37 countries in Stockholm. This year we have many new friends joining the Stockholm Junior Water Prize family – lets welcome Egypt, Latvia, State of Palestine, Tunisia and Jordan. Lets also welcome Chile and Laos back after a few years break.

As always we align ourselves with WorldWaterWeek, WWW, which will take place at WaterFront in the city centre. https://stockholmwaterfront.com/ this is the same venue as the past two years.

The plan is as follows:

Key dates for the Stockholm week:

Saturday 23 August – Travel in. Welcome evening.

Sunday 24 August – Interviews at WWW for half of the countries. City walk for other half. Socializing and games in the evening.

Monday 25 August – Interviews for other half of the countries at WWW and city walk for others. Social evening.

Tuesday 26 August – Study tour to Xylem offices. Award Ceremony. Celebration dinner, students.

Wednesday 27 August – TBC

Thursday 28 August - Departures

I am happy to also be able to confirm that the National Organiser Group will be represented by Marieke Muller from the UK, Karla Schlie from Switzerland and Mónika Jetzin from Hungary. This group is a contact point for all national organisers on a volunteer basis. Thank you so much Karla, Marieke and Mónika for doing this!

I know you are getting busy now organizing SJWP and planning your national awards ceremonies. To help with the plans please see below for key deadlines. Keep me updated also in your planning!

Key deadlines in short for the 2025 Stockholm Junior Water Prize:

Deadline project submission: 10 June

Deadline video for Peoples Choice Award: 1 July

Deadline travel plan: 15 July

Please an action for you: do confirm that you are actually the national organizer this year (unless we have communicated on the subject) and if you know if it is you who will travel to Stockholm.

Please also remember the rule about one or maximum two students per country team.

Also, remember to forward your telephone number if you are still not part of the whats app group.

Events are being planned with our partners and I will forward invitations and save the dates in due time.

That's it for now! Please do contact me with any questions you might have or ideas for SJWP and WaterTank.

Warm regards from chilly Stockholm!

Ania Andersch
