The Founding companies

Our thinking is based on an "upstream" and systematic approach

A unique Swedish model...

- A co-creative model where well over 50 representatives from the 33 founding companies have been actively engaged in the process.
- Nine Founder's meetings offering educational presentations, workshop discussions and active networking.

A unique Swedish model...

- Academic partners from Lund University and Linnaeus University.
- In cooperation with the Textile Importers Association and Swedish Chemicals Agency.
- All based on a holistic approach to sustainability

The Guidelines...

- 1 Preface
- 2 Introduction
- 3 Water Efficiency
- 4 Water Pollution
- 5 Wastewater
